Total Exp: 7 yrs.

D-43, Irshad Garden,
Sahibabad,
Ghaziabad-201005

WHY SHOULD YOU HIRE ME?

With 7 years of experience working as a UI/UX Designer, and Visual designer, I have worked with a variety of companies locally and internationally, designing and producing quality Web, Mobile, and print design solutions. Offering unique solutions for each client is a major strength, with effective wireframe, interactive prototype, user store, process flow, and visual design driving brand recognition as per customer requirement. As a creative thinker, I work efficiently and effectively whilst exploring options within the task at hand.

JOB RESPONSIBILITIES:-

- Create wireframes, Flow Diagrams, Interactive Prototypes, mockups, template for website Application, IOS and Android Application.
- Handling Graphic Works like Banners, Logo, Newsletters, and Brochure, Packaging work etc.
- Making business PPT for customer and management
- Improving user experience and ensuring web compatibility across all browsers and devices.
- Co-Ordinator with Developer set down all images for applications in IOS & Android Devices.
- Front-end development using HTML5 & CSS3 W3C compliance & cross-browser compatibility.
- Create Responsive website with help of bootstrap & Non-bootstrap.
- Create websites & fixing bugs.
- Gathering and evaluating user requirements from Business analytics and project manager
- Known for ability to multi-task and work on different applications at the same time.
- Ability to work with ease under pressure and strict deadlines.
